PERSONAL PROFILE

I'm a full stack junior developer looking for a position that makes best use of my existing abilities and allows me to learn, develop new skills and master a career in software development. With 15+ years of experience in the customer facing industry, I'm a good listener with strong communication skills, very articulate and always looking to improve. I have strong Business Management experience having worked as Salon Manager which required a high level of attention to detail. Being able to juggle unexpected situations helps me to prioritize tasks and work in an agile way.

SKILLS

- **Applications -** Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Adobe Illustrator, Photoshop, Sketch, InVision
- **Programming Languages -** HTML5, CSS3, JavaScript, Python(Flask, Django)
- **Database Systems -** MySQL, Mongo DB
- Well Organized with Solid Administration Skills
- **Remote learning** reinforced my ability to communicate remotely through platforms such as Slack Channel
- Self-starter and internally motivated
- Technically capable to write and analyse code including maintainability, reuse, clean code
- **Strong communication skills -** ability to communicate effectively with a wide range of individuals and groups e.g. clients, colleagues, suppliers and senior management. Strong presentation skills and confidence demonstrated by experience of delivering presentations to small groups
- **Teamwork -** ability to work with several representatives from different disciplines concurrently to ensure successful completion of tasks. Managed the induction and supervision of new staff members
- **Time management & agile way -** studying online gave me the ability to work on my own initiative towards tight deadlines whilst maintaining attention to detail. Establishment of timelines for completion of tasks in stages
